### SUMMER HOLIDAY HOMEWORK

STUDENT NAME-----

CLASS-----

Dear Parents

Summer break is round the corner and you again get a chance to play, explore and relax. Summer can also be a time for learning if utilized properly. It is imperative to encourage them to promote active learning.

Though the list is inexhaustible, we have selected a few assignments for your child. Each assignment is a thoroughly thought one and focuses on developing various skills in children. You can add your own too for your child.

In addition to this encourage your child to read a lot. Television time needs to be strictly limited; programmes they watch should be monitored. The child should be encouraged to keep a diary and note their thoughts about the books they read, day to day happenings, special occasions etc. Child should also be encouraged to pursue what they are interested in through the process of inquiry. Dear parents gear up and be an active participant in your child's summer assignments.

#### **Recommendations that can make a difference-**
